CLEARINGHOUSE
FOR FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION

U. S. DEPARTMENT OF COMMERCE / NATIONAL BUREAU OF STANDARDS / INSTITUTE FOR APPLIED TECHNOLOGY

September 15, 1967 Volume 18, Number 5

TECHNICAL TRANSLATIONS

Issued twice a month by the Clearinghouse for Federal Scientific and Technical Information. Annual subscription $12 ($4 additional for foreign mailing). Single copy $3. Make remittance payable to the CLEARINGHOUSE and mail to a U. S. Department of Commerce Field Office or to the Clearinghouse, Springfield, Va. 22151. Address changes should be sent to the Clearinghouse.

PURPOSE

TECHNICAL TRANSLATIONS announces to the public the availability of English translations of scientific and technical literature prepared by Government and private sources. "Translations in Process" are also announced.

FORMAT

Bibliographic citations are listed alphanumerically by specific subject groups within general subject fields according to the COSATI Subject Category List. References to the original source text are given as they appear on the translations and the Clearinghouse assumes no responsibility for their accuracy. Indexes provide access points to the literature cited in this journal.

HOW TO ORDER

Each bibliographic entry contains the acronym of the agency from which the translation may be ordered; these are keyed to the ordering addresses listed in the "Directory of Sources" located at the back of the journal. Order by title and the number indicated in the citation. Translations available from the Clearinghouse are priced at $3 for paper copy (HC) reproduction and $.65 for microfiche (MF) reproduction. Use of Clearinghouse Coupons for the purchase of Clearinghouse Documents is encouraged. For documents available from other sources, make check or money order payable to the agency indicated.

The Clearinghouse accepts United Nations Educational, Scientific and Cultural Organization (UNESCO) coupons for Clearinghouse documents. However, the use of Clearinghouse prepaid document coupons when ordering documents from the Clearinghouse has many advantages. It eliminates the use of an exchange bank each time you order a document. You can avoid fluctuation in the exchange rates. UNESCO coupons may be redeemed for Clearinghouse document coupons.

Clearinghouse coupon order forms are printed in this journal.

REFERENCE SERVICE

Reference services for the location and identification of translated materials, completed or in process, are provided by the Clearinghouse, Special Libraries Association Translations Center, and the European Translations Center. Mailing addresses are listed in the "Directory of Sources."

The Clearinghouse can serve you better if you use them.

Clearinghouse prepaid document coupons are tabulating cards with the face value of the purchase prices of paper copies or microfiche copies of documents. Almost all of the documents in the Clearinghouse collection are now priced at $3.00 each for paper copies and 65 cents in microfiche.

The coupon is your method of payment, order form, shipping label, and receipt of sale. When you order documents on coupons your request moves quickly from our mail room to our warehouse for prompt handling and shipment. Your order is controlled along the way by data processing equipment.

The new Clearinghouse single price/coupon sales system saves you time in another way, too—you do not have to inquire about prices before ordering.

If you haven't placed your first order for Clearinghouse coupons yet, why not use the order form attached.

special ANNOUNCEMENTS

CUMULATIVE INDEXES

The Clearinghouse announces cumulative indexes to Technical Translations, covering Volume 13, January through June 1965; Volume 14, July through December 1965; Volume 15, January through June 1966; and Volume 16, July through December 1966.

Index entries provide the document announcement location in individual Technical Translations issues by supplying the issue number, field/group, and accession number for an author listing, a journal listing, and a report number listing.

The Indexes will be available August 1, 1967, at the price of $3.00 per volume. Order by title: Cumulative Index to Technical Translations, and by volume number.

PREFACE

The work of translating the materials listed in this journal is being done at many domestic and foreign points by government, commercial translators, publishers, and universities. Among them are the Joint Publications Research Service (JPRS), which translates foreign literature at the request of other Federal Agencies; and the Special Foreign Currency Science Information Program (SFCSI), administered by the National Science Foundation, which produces translations prepared in participating countries of Israel, Poland, and Yugoslavia. The Special Libraries Association (SLA) collects translations from non-government sources, domestic and foreign, and the Clearinghouse (CFSTI) from foreign and U. S. Government sources.

The Cyrillic-English transliteration standard used by the Clearinghouse is similar to that endorsed by the National Federation of Science Abstracting and Indexing Services (NFSAIS). This standard makes minimum use of diacritical marks and is a slight modification of the Russian portion of the British Standard Institution's system for Cyrillic-English transliteration. This standard has been recommended by the USA Standards Institute Sectional Committee Z39, Library Work and Documentation.

Commercial translators may have their work cited in this journal by sending the bibliographic and availability information to the Clearinghouse.

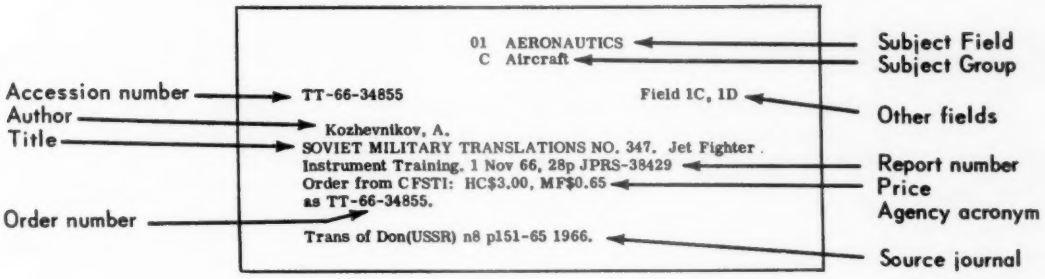
JPRS translations announced in this journal are also available from Research and Microfilm Publications, Inc., on 35-mm microfilm reels at about six-tenths of one cent per page reproduced. Single titles, serials, and subscriptions are available. For more information and pricing, write to: Research and Microfilm Publications, Inc., P. O. Box 267, Annapolis, Md. 21404.

Readex Microprint Corporation offers a microproduction edition by year of all JPRS reports listed in the Government Printing Office *Monthly Catalog of U. S. Publications*. The microprint editions are sold on subscription. Single editions are not available. For price information, write to: Readex Microprint Corporation, 5 Union Square, New York, N. Y. 10003.

SAMPLE ENTRIES

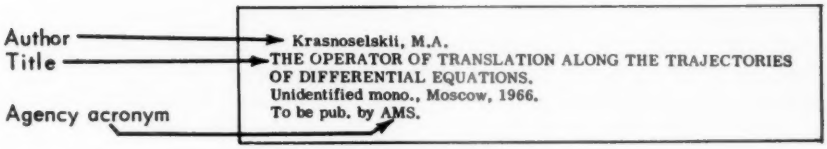
• BIBLIOGRAPHIC ENTRY

Entries are arranged alphanumerically by *accession number* within the COSATI Field/Group.



• TRANSLATIONS IN PROCESS

Entries are arranged alphabetically by personal author.



• INDEX ENTRIES

Index entries provide the location of the document announcement in the journal by supplying either the *accession number and Field/Group*, or in the case of "Translations in Process" the *page* on which the document is cited. The following example is taken from the Author Index; Journal and Number Indexes use the same system.
